

Statement of purpose

Health and Social Care Act 2008

Part 2

Aims and objectives

Please read the guidance document *Statement of purpose: Guidance for providers*.

Aims and objectives

What are your aims and objectives in providing the regulated activities and locations shown in part 3 of this statement of purpose

Our aim is to provide our registered patient population with high quality, personal health care. We aim to maintain and improve the health of our patients by working in partnership with them. Continuing professional development ensures the entire Practice team work within national and local guidelines for the benefit of its patients.

The Practice provides a comprehensive service that is available to all irrespective of gender, race, disability, age, sexual orientation, religion or belief and respects their human rights.

The Practice promotes equality through services and will pay particular attention to groups or sections of society where improvements in health and life expectancy are not in keeping with the rest of the population.

Access to services will be based on clinical need.

The Practice aspires to the highest standards of excellence and professionalism, and will provide high quality care that is safe, effective and focused on the patient.

All staff have access to training and development appropriate to their role, and will aspire to effective leadership and management.

Practice services will reflect the needs and preferences of patients, their families and their carers. Patients, with their families and carers, will be involved in and

consulted on all decisions about their care and treatment.

The Practice will work in partnership across organisations in the interest of patients, local communities and the wider population.

The Practice will be accountable to the public, the community and patients that it serves.
